

## Here's What You Need to Know About Working The World's 1<sup>st</sup> Talking Puzzles

**Your packet includes 16 sheets: 1 instruction sheet plus 3 sheets for each of the 5 puzzles – a puzzle grid, a clues sheet and an answer key. All of the 5 Answer keys will be at the end of the packet, and you can print off individual pages as you choose and don't necessarily need to print the entire packet.**

**You have never worked puzzles like these before, so please read all of the instructions on this page.**

Our TALKING puzzles generally contain 50 – 116 words/clues which may be single words or phrases, usually in the form of a story or narrative. It is our 'rule of thumb' to fill 98-100% of the 324 spaces in our 18 x 18" puzzles (with words from the clues sheet), and we usually squeeze between 360-380 characters into those 324 spaces.

This is not an easy task to design, and many hours are put into each puzzle to create as much fun, interesting, educational and challenging content as possible. In some of the puzzles there may be a few "extra" words in the clue list that may not pertain to the theme, and you can choose to do that portion of the puzzle, or not.

### **THE SCRAMBLED WORD FEATURE**

Our unique and challenging Puzzles are not only word searches and narratives but most of them also contain hidden words to be unscrambled. You'll see that most of our puzzle grids have 7, 8 or 9 'empty' spaces. As you progress, these spaces will fill in, and when you have all the missing letters, you can unscramble them to form a 7, 8 or 9 letter word that is related to the theme of the puzzle in some way.

In a few puzzles, which we call 'Outside the Box' puzzles (labeled OB puzzles), one or even all of the missing letters are not part of the puzzle grid, but are actually located outside the grid. I.E. a word like 'house' may be missing either the 'h' or the 'e' because that letter is invisible, outside the box. The OB puzzles are more difficult, so depending on your age, ability, and desire, you can choose to solve this part of the puzzle, or not.

### **Instructions: USING OUR UNIQUE ANSWER KEYS / COORDINATED GRIDS**

Because these word-search puzzles contain so many correct clues, it can be very confusing to try to circle all of them in an answer key, so we have designed a special key. You'll notice that all of our puzzle grids have numbers down the left side and across the top (co-ordinates). On your Clue sheet, however, you will see there are no co-ordinates, as that would give away the location (answers). The Answer sheets, however, have all the same clues listed with their co-ordinates (answers) so you can find the correct word or clue on the puzzle. The 'row' numbers go down the left side of the puzzle, while the 'column' numbers go across the top from west to east. The first number listed will always be the row #. The second number will always be the column # ( i.e. 3-14 indicates row 3, column 14). That coordinate is where you will find the first letter of the clue, followed by the direction the clue goes – i.e., E, W, N, S, NW, NE, SE, and SW. Example: If a clue on the answer sheet says "Goat 5-9 NE" it means on row 5 (down the side), in column 9 (across the top), is the letter "G" and the remaining letters, 'oat' will go toward the North-East. So, like co-ordinates on a map, the first letter of your clue will be found where the Row # intersects with the Column #.

*Here are a few helpful tips:*

**TIP # 1:** We strongly suggest you read through the whole puzzle narrative before starting the puzzle as it will make solving the puzzle a lot easier (you'll see what we mean).

**TIP # 2:** Some puzzlers find it helpful to write the navigational directions NW, N, NE, E, SE, etc. on the edges of the grid before starting the puzzle.

**TIP # 3:** Many letters on the grid are used multiple times (possibly even up to 8 times) so it can get very messy and difficult to find additional words. Thus, if you write the answers on the clue sheet, you eliminate the need to circle or highlight words (and save money on highlighters).

**TIP # 4:** There may be duplicates of some words, such as 'the,' or 'when' in any puzzle. Any one of the duplicates are acceptable answers, and you may need several of the same word (with different coordinates) to complete a puzzle. This is part of what makes these puzzles more challenging. BEWARE, however, of 'words' or 'phrases' on the puzzle that APPEAR to be the same, but are not. I.E., one clue might be 'the house,' another might be 'by the house,' while still another might be 'house' or 'houses'. Be sure you have the ENTIRE clue before writing the coordinates on the clue sheet. Always write the ROW number first, then the COLUMN number, plus the DIRECTION.

**TIP # 5:** If you peek at the answer sheet before starting the puzzle you will immediately see the 'hidden word,' and lose the challenge of solving that portion of the puzzle.

## “Smart Moves”

By Jeri Mertes

[www.wordpuzzlesoutsidethebox.com](http://www.wordpuzzlesoutsidethebox.com)

We think outside the box, so some of our puzzles will have one or more 'clues' with one or 2 letters extending beyond the 'grid'. These, of course, are not visible, so when you find one, write the missing letter(s) right outside the grid next to the word. This puzzle has 1 letter Outside the Box. Can you find it?
